

# Understanding the dataset:

The screenshot displays the IBM Cognos Analytics web application. The browser address bar shows the URL: `us3.ca.analytics.ibm.com/bi/?perspective=ca-modeller&id=96035703_d516854a152c46438bb726a25d769304_sessionTemp&objRef=&tid=96035703_d516854a15...`. The application header includes the text "IBM Cognos Analytics with Watson" and a search bar. The main interface is divided into three sections: a left-hand navigation pane, a central grid view, and a right-hand properties pane.

**Left-hand navigation pane:** Shows a tree structure under "Data module". The "Inventory ...atasset.zip" folder is expanded, revealing the "M\_data" module. Below "M\_data", there is a "# Row Id" and a "data" folder containing a list of dates from "2014-01-01" to "2014-01-11".

**Central grid view:** Displays a table with the following columns: "M\_data", "Row Id", "data", "venda", and "estoque". The "M\_data" column is highlighted. The table contains 14 rows of data, each representing a date in January 2014.
